

INTRODUCTION & OVERVIEW

ABOUT THE FELLOWSHIP

The main goal is to establish a (worldwide) network of like-minded individuals and entrepreneurs who share similar interests and values, as described below and 1214productions.com web pages.

One of the primary objectives is to establish a network (*Fellowship*) of people of different backgrounds and skills, particularly in the following areas: agriculture, nutrition, architecture, engineering, design, IT, building and construction, health care, finance, law, arts, music, and more.

To gather such a network and be in touch with interested people and contributing people, based on similar interests and values, will take time and will be an on-going process for the years to come.

There are no '*fees and costs*' involved when joining the *Fellowship*. There will be no further '*rules and regulations*' involved other than what is agreed by signing the *Agreement Form*. All personal and contact details of the joining members will be kept private, but will be accessible via a network's '*members only*' web page - only if individually agreed and confirmed - at a later stage.

Everyone is welcome to promote the *Fellowship* as he/she finds appropriate, and as presented on www.1214productions.com.

ABOUT COMPOUNDS

The purpose of establishing a *Compound(s)* (worldwide) is to create a self-sustaining living and working environment for the *Fellowship* members.

The importance and relevance of developing such *Compounds*, and certain defense mechanisms and systems, is associated with: ^[1] The effects of climate change on food security; ^[2] The growing threat of (global) war; ^[3] Uncertainties over (who is in control of) the development of new sensitive technologies, including nuclear, Bio-engineering and Artificial Intelligence; ^[4] The establishment of the Caliphate.

Each member who joins the *Compound*, after established, will be offered a living and working space, where the (temporary or permanent) stay will be each member's personal decision. The *Fellowship* may employ contractors (not members of the *Fellowship*) to work in *Compounds* if needed, and also make asset-based (land, real estate) and other strategic investments worldwide. Such contracts and investments will be associated with on-going developments and financial management of the *Compounds*.

The first *Compound* is planned for Switzerland. The exact location will be announced after the initial funding is in place. All who would like to consider investing or making a financial contribution for land purchase and real estate development (firstly in Switzerland, then elsewhere), please send a note to fellowship@1214productions.com for more details.

After the initial funding is in place and the location announced, a note will be sent to all members asking to attend the first general meeting, taking place in Switzerland. The note will be sent at least few months prior to the meeting.

Please note: the work on organizational, financial and other *Compound*-related issues will take time and effort, before any activities could take place. For all relevant questions and suggestions, please feel free to email: fellowship@1214productions.com, allowing at least few days to respond.

The Fellowship of Thoth is a written agreement between individuals to confirm their commitment to the common cause according to the *Rules* that govern a *Compound*, which includes [agricultural] land and a facility complex, with its *activities and support, principles and intentions*, summarized in the following order:
